Evolution of Benchmarks

ICE Georgian Government Bond Indices

ICE Georgian Government Bond Indices

Intercontinental Exchange (ICE) launched the first-ever Georgian Government Bond Indices publicly accessible through the ICE Index Portal (<https://indices.ice.com/>).

Seven indices were introduced, covering the full spectrum of the Georgian government bond market:

- **G0GE** – ICE Georgia Government Index, covering maturities of 1–10 years;
- **GJGE** – ICE All Maturity Georgia Government Index, covering the full market up to 10 years;
- **GAGE, G1GE, G2GE, G3GE, G4GE** – maturity-segmented indices (0-1, 1-3, 3-5, 5-7, and 7-10 years).

The indices are constructed using the same methodology as one of the world's longest-established fixed-income benchmark families, with origins dating back to the 1970s (Merrill Lynch → BofA Merrill Lynch → acquired by ICE in 2017).
