6.2. Data sharing
-

7. Confidentiality
7.1. Confidentiality – policy
1. The Law of Georgia on Official Statistics: • According to the article 5 of the law Statistical confidentiality and exclusive use for statistical purposes – individual data collected or received by the producer of official statistics, relating to natural or legal persons, must be strictly confidential and used only for statistical purposes. • According to the article 34 (Observing Confidentiality of Statistical Data) of the law 1. Data collected, processed, and stored to produce official statistics are confidential if they enable the direct or indirect identification of a statistical unit. In addition, aggregated data are subject to statistical confidentiality: a) Aggregates composed of 1 to 3 units, when the unit is a natural or legal person if one of these units could be identified indirectly, thereby disclosing individual data about this unit. Aggregates composed of more than 3 units may be declared confidential by the Executive Director if required to ensure statistical confidentiality; b) Information declares as a state secret on the basis of the „Law of Georgia on State Secrets“. 2. Confidential data shall be used exclusively for the purposes of producing statistics in accordance with this law. 3. Statistical data about the administrative body cannot be considered confidential information, except for the information determined by the Law of Georgia „On State Secrets“. 4. Individual data obtained from publicly available sources, which are defined as public information in accordance with the legislation of Georgia, shall not be considered confidential information. 5. Confidential (individual) data may be published if there is written consent from the statistical unit regarding the publication of such data. 6. It is not allowed to disseminate and distribute confidential data or use it for non-statistical purposes. • According to the article 38 (Confidentiality commitments) of the law the confidential statistical data collected and processed for statistical purposes shall not be used or disseminated either for personal, academic, research or any other activities, by the employees of the producers of Official Statistics. https://www.geostat.ge/media/78228/The-Law-of-Georgia-on-Official-Statistics--20.04.2026.pdf 2. The Law of Georgia on Personal Data Protection https://matsne.gov.ge/en/document/view/1561437?publication=9
7.2. Confidentiality – data treatment
• Confidentiality guidelines. • Written undertakings by an employee of Geostat on ensuring confidentiality of gained/collected data as a result of official duties.

8. Release policy
8.1. Release calendar
Data dissemination dates are defined by the calendar developed on the basis of the Statistical Work Programme, which is published on the website of Geostat and is publicly available.
8.2. Release calendar access
https://www.geostat.ge/en/calendar
8.3. User access

All users have the equal access to the statistical data simultaneously.

9. Frequency of dissemination
Annually.

10. Accessibility and clarity
10.1. News release
Press release on median earnings is published on the Geostat website: https://www.geostat.ge/en/single-news/3280/median-earnings-by-economic-activities-2023
10.2. Publications
-
10.3. On-line database
-
10.4. Micro-data access
-
10.5. Other
The data on median earnings are available at the following link: https://www.geostat.ge/en/modules/categories/39/wages
10.6. Documentation on methodology
-
10.7. Quality documentation
-

11. Quality management
11.1. Quality assurance
To ensure the quality of the statistical processes and products Geostat follows Chapter 10 – Quality of official statistics – of the Law of Georgia on Official Statistics, as well as the European Statistics Code of Practice, the UN Fundamental Principles of Official Statistics and Quality Assurance Framework of the European Statistical System (ESS QAF).
11.2. Quality assessment
Methodology and Quality Management Division of Geostat, along with the sectoral departments, is responsible for the quality of the produced statistical products and processes. The Division carries out quality audit, self-assessment of statistical processes and assesses the risks for the quality of statistical processes and products. Geostat has developed policy documents, guidelines and standard routine descriptions. These documents ensure the standardization of statistical processes and products and the establishment of a unified quality assurance system. Quality policy is available on the following link: https://www.geostat.ge/media/44380/QP_Geostat_EN.pdf

12. Relevance
12.1. User needs
Users of the statistical information are state authorities, researchers, representatives of business sector, media, citizens. Users use this data to assess and analyse the current situation in the labour market of Georgia.
12.2. User satisfaction
In 2023 user satisfaction survey was conducted, the target of the survey was to analyze the assessment of quality of statistical data by users and explore ways to improve user services. The survey report is available on the website of Geostat: https://www.geostat.ge/en/page/customer-service
12.3. Completeness
The data are consistent with international standards.

13. Accuracy and reliability
13.1. Overall accuracy
-
13.2. Sampling error

-
13.3. Non-sampling error
-
14. Timeliness and punctuality
14.1. Timeliness
The data for the reference year are published in October of the following year.
14.2. Punctuality
The data is published according to the date specified in the statistical work programme. There has not been any violation of publication dates.
15. Coherence and comparability
15.1. Comparability – geographical
The data are comparable.
15.2. Comparability – over time
The data are comparable over time.
15.3. Coherence – cross domain
-
15.4. Coherence – internal
-
16. Cost and burden
The data are provided through administrative source and do not require additional costs.
17. Data revision
17.1. Data revision – policy
Statistical data revision policy is available on the website of Geostat: https://www.geostat.ge/media/59824/Data-Revision-Policy-and-Error-Correction-at-Geostat_Eng.pdf
17.2. Data revision – practice
Planned revision of data is not carried out. Unplanned revision (for data clarification) has not been implemented in practice.
18. Statistical processing
18.1. Source data
The primary data are collected by the LEPL Revenue Service.
18.2. Frequency of data collection
The database is provided to Geostat on a monthly basis.
18.3. Data collection
-
18.4. Data validation
-
18.5. Data compilation
The processing of the database and the calculation of indicators by types of economic activity (NACE Rev.2) are performed using SPSS software.
18.6. Adjustment
